

PDF Text Extraction Tool - Test Document

This is a sample PDF document to test the text extraction functionality.

Section 1: Introduction

This document contains various elements that our extraction tool should be able to identify and process:

- Titles
- Headers
- Paragraphs
- Tables
- Lists

Section 2: Sample Data

Here's a table with sample data:

Name	Age	City
John Doe	30	New York
Jane Smith	25	Los Angeles
Bob Johnson	35	Chicago

Section 3: Conclusion

The PDF text extraction tool should be able to process this document and extract all the content with proper
